

## **BankBlack Early Pay Disclosure**

(November 2022)

**BankBlack Early Pay** is a service offered to you if you are a consumer (not a business) who has a noninterest bearing checking account with OneUnited and receive your paycheck through direct deposit. You may be automatically enrolled in BankBlack Early Pay after 1-2 pay periods.

OneUnited Bank will make your money, including government checks, available as soon as your verified employer/payor notifies OneUnited Bank of the payment, which can be 1-2 days before most banks make the funds available. If there is a weekend or bank holiday, Early Pay will post on the next business day after the weekend or bank holiday. Employers/payors must be verified by OneUnited Bank. If they cannot be verified, OneUnited Bank cannot make the payment available early.

You will receive a notification of the payment and the available funds will be indicated in online or mobile banking.

If funds from a paycheck are not available early to you, it may be due to one of the following:

1. You are not a consumer (you are a business customer).
2. You do not have a noninterest bearing checking account (you only have a savings account or an interest-bearing checking account with OneUnited Bank).
3. You did not sign up for direct deposit.
4. It has not been 1-2 pay periods, which is needed for BankBlack Early Pay to begin.
5. Direct deposits are not made in your name or in the name of a signee on your checking account.
6. OneUnited Bank cannot verify your employer/payor.
7. Your employer/payor did not notify us of the deposit 1-2 days early.
